

Name: Hand Sanitiser Gel Pack: 4x5L

Rutpen 80% Alcohol Hand Sanitiser Gel has been formulated based on the World Health Organisation recommended Formulation 1. This formula contains glycerine to moisturise the skin, leaving a silky-smooth feel once the alcohol has evaporated.

The microbicidal activity of this WHO-recommended formulation was tested by WHO reference laboratories according to EN standards. Their activity was found to be equivalent to the reference substance, for hygienic hand antiseptis.

It has been Certified to BS EN 1276:2019 as effective with a 99.999% kill

Label – Application – Tools – Classification

Instructions:

- Apply a small amount to the hands and rub in well
- Application to dry or cut skin should be avoided
- Where water is available wash hand thoroughly with soap and dry before applying

Our gel is ideal to decant into lotion pump bottles and even spray bottles due to it being formulated as a liquid/gel

Technical data:

Colour: Slightly opaque

Hazard Pictogram Concentrate: Flammable

Personal protective Equipment: NA

Special Notes: None

Safety Information: See product label and Safety Data Sheet

Storage Conditions: Stable under normal conditions
